

FOR A GOOD REASON
GRUNDIG

Conical Curling Wand HS 6130

Product data

- Conjures up gentle waves or defined curls that are spectacularly springy and stay in a perfect, long-lasting and flexible shape.
- Conical heating element, 13 - 25 mm in diameter: the curls get smaller from the roots to the ends, creating particularly natural-looking curls or waves
- Care and protection from its gentle ceramic coating with tourmaline and nanosilver - for healthy, hydrated hair with more shine and bounce:
 - Ceramic ensures a constant high temperature and even heat distribution.
 - Tourmaline generates negative ions which care for your hair naturally - preventing frizzy, statically charged hair and preserving the hair's natural moisture.
 - Nanosilver prevents the growth of bacteria.
- Especially suitable for long hair
- Adjustable temperature regulation from 120° C to 210° C and suitable for any type of hair.
- Worldwide voltage adjustment 120-240 V~, 50/60Hz
- Great convenience in safety and use:
 - Blue LED function display
 - Fast electronic heating up time within 30 seconds to 100° C
 - Automatic switch-off after 60 minutes
 - Integrated product stand for safe cooling
 - Cool tip and glove (included) for practical and safe handling under perfect protection
 - Professional 1.8 M cable guarantees freedom of movement when styling
- Colour: glossy white / silver / pink
